

**When EUROCAMP is done...**

**..you have two new options:**

**"Keep on...."**

**"Postcamp" "Destination Westcoast"**

**An extra camp on the Westcoast of Norway.  
Between high mountains, deep fjords, beautiful lakes and glaciers.**

You miss a lot of Norway if not seeing Vestlandet (the western part). The nature here is totally different from what you experience in East-Norway, where Lillehammer is.

- **Time: 6. – 12. august 2007.**
- **Where: Loen**, close to the beautiful Loenvatnet (Loen lake). Here you can stay in a primitive camp, made for Royal Rangers. There will be signs for the camp from the main road going to Loen.
- **How to travel from Lillehammer:**
  - The best way to travel is by car or bus.
    - Follow E6 north until you reach Otta, about 1 hour and 20 minutes
    - Turn left in Otta, and follow riksveg (countyroad) 15 west. Here you travel through a beautiful valley, and then cross the mountains towards west. If you bring your downhill skiing equipment, you can make a stop at the summer ski camp in the mountains.
    - When you arrive in Stryn you follow riksveg 60 south, next to the fjord. After about half an hour you will arrive in Loen, there you can follow the signs to the camp at Loenvatnet.
    - It takes about 5 hours to drive from Lillehammer to Loen.
- **Setting up the camp.** You have to bring your own equipment for the camp, and your group will get to organise your own area in the camp.
- **What you can do**  
You can choose yourselves what you want to take part in: Trekking on your own is for free, if you want guided tours you will have to pay extra. The mountains with glaciers are just nearby, or maybe you'd prefer going for a trip on the lake or the fjord?
